

## CIMA IP PLATFORM's

CIMA delivers several IP enabled platforms, fitting any need of either an Operator, WEBTV provider or Hospitality project.

### CIMA IP100

This product is designed to deliver a cost effective HD platform. Its book size case gives the product a slick design and with its powerful Trident processor it can handle any load. The IP100 is focused on Operator based IPTV projects and only supports a limited amount of functions of the CIMA Software stack.

### CIMA IP300

This Broadcom 7405 based product supports the complete CIMA software stack and is focused on projects where OTT delivery is part of the specification needs.

### CIMA HDD300

The core of this product is the same as for the IP300 but delivers the option to install an internal HDD up to 2 Terrabyte.

### CIMA IND100

More info will follow in January 2011.

### CIMA IND300

We proudly introduce our new IND300 IPTV Set Top Box, especially designed and developed for hotel rooms, resorts, holiday parks and other professional surroundings. With its strong iron vandal proof casing, it can be hidden VESA mounted behind any TV set, even old ones, just using one simple remote control for TV and the Set Top Box.
