

## CIMA READY-TO-RUN APPLICATIONS

For fast delivery of consumer based STB's, CIMA support several Ready-To\_run applications. These applications are easy to change brand on but limited the amount of time needed to developed a full STB experience.

### EVOLUTION

This software is focussed on Hybrid implementation of STB's. It is a great way to use our HYB300 platform as Retail product.

The product supports DVB reception in most of the European countries including pre-installed channel lists. It is also available in more then 20 languages.

The EVOLUTION Software supports:

- DVB reception
- EPG functions including OSD
- PVR functions from EPG
- HBBTV
- HTML 5
- Video On Demand
- Video Telephone (Skype)
- Teletext
- Subtitles
- OTT reception of IPTV channels
- YouTube XL

### UTELISYS

This solution is focussed for Operators and small MDU/Hotel projects. The seamless fast interface makes selection of services easy for the user. It combines IPTV and VOD with a Internet Metadata content delivery platform. This platform is available as a service and support delivery of EPG, weather, Content and News data. Further the application supports Social media like:

- Flickr
- Facebook
- Hyves
- YouTube
- Twitter

Utelisys is ready to run.
